PROFESSIONAL SUMMARY

Product and technology professional with 8+ years of experience across fintech and airline technology, including 6+ years of onsite experience in Japan. Skilled in stakeholder management, product requirements, backlog management, Agile delivery, API integrations, and DevOps tools. Experienced in leading cross-functional teams, driving technology initiatives, and delivering scalable solutions that improve operational efficiency and customer experience.

WORK EXPERIENCE

Xoriant Solutions Pvt. Ltd **Pune, MH**

Senor Devops Engineer *Dec'2024- present*

- Administered 8+ enterprise DevOps tools and managed Docker-based application deployments for 50+ microservices across AWS cloud services, supporting scalable platform operations.
- Resolved 200+ incidents across multiple DevOps tools supporting fintech applications by conducting root cause analysis and addressing recurring infrastructure gaps, reducing weekly tool downtime incidents by approximately 70%.
- Prioritised and automated upgrades and patch deployments across 8+ DevOps tools using Jenkins pipelines, cutting patch cycle time by 60% and removing planned downtime windows for 100+ developers.
- Led the Jenkins OSS to CloudBees CI migration across 5+ teams: gathered requirements, aligned the roadmap, defined the onboarding model, and phased the rollout, creating a scalable, standardised CI/CD platform for 30+ pipelines
- Identified 2-3 hour incident investigations as a major drain on engineering productivity and defined a **RAG-based Platform Assistant** over documentation and incident records, with success metrics for investigation time, answer accuracy, and adoption

Tata Consultancy Services **Tokyo, Japan**

Business Analyst *Oct'2019- Nov'2024*

- Led a 10-member team to deliver an airline e-commerce web and mobile application for domestic markets, owning requirements, scope, and releases end to end and driving a 20% increase in online bookings in year one.
- Owned end-to-end requirements gathering through workshops with 10+ business stakeholders, prioritised features by business value and delivery effort, and translated them into BRDs, user stories, and wireframes for the booking and post-booking platform.
- Designed API specifications and architecture for 40+ microservices across airline reservation systems and third-party services, defining reusable REST/SOAP interface contracts that drove 20% API reuse and reduced duplicate integration effort.
- Managed backlog grooming and sprint planning across 35+ sprints with development and QA teams, delivering 12 production releases on schedule at a 80% sprint completion rate.

Tata Consultancy Services **Tokyo, Japan**

QA Analyst *Oct'2018- Sep'2019*

- Contributed to the Self Bag Drop rollout for Japan Airlines' domestic market, conducting on-site passenger interviews to identify usability issues and coordinating with cross-functional teams to resolve them.
- Validated change requests across Altea DCS modules and supported IATCI testing and coordination with partner airlines.

PASSION PROJECT/ PORTFOLIO Links

Zomato Hygiene Trust Case Study

- Found hygiene uncertainty to be the top barrier for working professionals (90% of 31 surveyed), and prioritized solutions using RICE .
- Designed a Hygiene Score and Review Summary prototype with defined success metrics

Platform Assistant for Platform Engineers

- Authored a PRD for an AI assistant that unifies Jira, ServiceNow, Confluence and vendor docs for platform engineers, targeting 3–4 hours per week lost to searching .
- Specified the RAG architecture, evaluation set, success metrics and guardrails

SKILLS & INTERESTS

Tools: Atlassian Jira, Confluence, Bitbucket, Bamboo, ServiceNow, Postman, Soap UI Jenkins, Nexus, Zephyr, Dynatrace

Product: User Segmentation, Data Analysis, User Empathy, Competitor Analysis, Product Ideation, Wireframing, UI/UX Design, Product Metrics, Product Roadmap, Project Management, Agile Methodologies A/B Testing, Feature Prioritization,

Analytical Skills: Excel, Spreadsheets, Tableau, Power BI, SQL, Python, Google Analytics, Mixpanel

EDUCATION & Certification

North Maharashtra University **Dhule, MH**

Bachelor of Engineering in Mechanical *(2015-2018)*

- HelloPM - Certification in Product Management
- Anthropic AI practitioner
- AWS Certified Solution Architect- Associate
